The public school of Lone Grove is one whose standard is constantly being raised with the firm belief that the pupils of this district are entitled to as great educational advantages as those of any other district in the state or nation. During the past three years it has advanced from a non-accredited school to one which is now accredited to the extent of three full years of high school work. This has necessarily raised the standard of teachers employed, and the school in this district at present ranks very high in comparison with others of an equal size and property valuation.

Several organizations have been formed within the school, or with the school as a medium, to keep pace with this scholastic progress. Those which have been of most benefit to the community and school, and have aided in its progress, are the Parent-Teacher Club, the Literary Society, the Debating Club and the various boys' and girls' organizations under the supervision of the County Demonstrator and County Agent.

Our Parent-Teacher Club is in its second year and the members are deeply interested in the school and are a great help to the faculty because of their friendly co-operation. They have also been of material benefit in several instances and are at present working on a project to fence in the entire school plat, after which the work of beautifying the grounds will be taken up and carried to completion by early spring.

The Debating Club is likewise in its second year, and the experience gained by its members during the last year should enable the team representing this school to finish well up in the race for dramatic club, which work has just been organized this school year. Public speaking is proving of inestimable benefit to the members of the Dramatic Club and judging by the interest shown, this work is gradually becoming a necessary part of our high school course.

The Literary Society is possibly our most flourishing organization and its membership is made up of both patrons and pupils. It meets on alternate Fridays and is always well attended. Quite a number of the boys and girls are members of at least one of the clubs sponsored by the County Demonstrator and County Agent. Of these the most active are the Canning Club, the Poultry Club, the Calf Club and the Corn and Peanut Clubs. These clubs not only teach the children the practical side of farm life, but also furnish a means of securing school credits when their work is conscientiously done.

Lone Grove holds an important place in athletics among the Class B High Schools of Carter County. The base ball team played some fifteen games during the last season with a loss of only two, and with practically all of the players in school, the team is sure of a successful season. The girls likewise are developing a team which promises much, and they are strenuously endeavoring to make it a success.

Carter County always enters the State Spelling Contest. Several times Lone Grove has furnished Carter County's representative. This year Thelma Fisher from our school won third in the State Contest.

Lone Grove School has always been noted for its excellent spellers. Ever since it became a custom for Carter County to send a team of five spellers to the district meet at Durant, which custom originated fifteen years ago, Lone Grove has always been represented with at least one speller, and there have been times when the whole team of five has been selected from this school. Last year we sent two and this year we sent three on this team of five. Ed, Tom, Pearl, Katie and Thelma Fisher are five children out of one family who have at different times been members of this team to Durant.

In summarizing the Lone Grove school it is not too much to say that it is ever striving for more progressive ideas, aiming to be—"Not the first by whom the new is tried, nor yet the last to lay the old aside." We welcome any organization whose principles are such as will prove beneficial to our school, and bring to bear an elevating influence on our students; ever remembering that the student of today is the citizen of tomorrow, and striving to send from our community men and women of whom, as citizens, our county, state and nation may be proud.

R. V. Hankey, Superintendent.

Enterprise School, District 33, was organized in 1909. Previous to this date, Enterprise School was a one room log building very crudely built.

Two years after statehood the present building was erected and a two teacher school established, which has ever since been striving to meet the needs of the community.

The second story very successfully accommodated the district as a community hall when not in use by the school. This year the faculty added the first year of high school to their curriculum in order to accommodate those who were graduated from the eighth grade in previous years.

MILO SCHOOL

MILO SCHOOL DISTRICT 37

Milo school is located about three miles west of Woodford. This two teacher school offers eight grades of work supervised by Miss Ozelle Parker assisted by Miss Mabel Dyer. The high school pupils of Milo attend Woodford School and it is very probable that Milo District and Woodford District will sometime form a union graded school. Under such a plan Milo would remain as a ward school where the first through the sixth grade would be taught. Pupils above the sixth grade, including high school pupils would then have the privilege of attending Woodford without paying tuition or transfer fees.

Milo is the center of a prosperous farming community. This little village is noted for its hospitality and many of its citizens are known throughout the county. Both Dr. and Mrs. Amerson are on the school board and their beautiful country home is always open to the teachers.

BOYS' BASKET BALL TEAM

(189)
In baseball there were only three games scheduled, these three being with Lone Grove. The team lost a hard fought game to Lone Grove, 3 to 2, at Lone Grove. However, the other two games were annexed by a safe margin, one being played on the home grounds while the other was played on the opponent’s field.

Woodford Golden Rule Club is an organization of farm women who are very active in community welfare work. This club won second at the County Fair on canning.

R. R. Covey, Principal.
**Parent-Teacher Club**

A school can have its efficient teachers; it can have its efficient school board; but no school can properly function unless it has a wide awake and progressive Parent-Teacher Club. Woodford can well boast of that club under the direction of Mrs. Dow Taylor as president, and Miss Katherine Kinzey as secretary. Each meeting is attended by an average of thirty or forty and at one meeting over one hundred parents were present helping to solve the problems of the teachers. Fifteen Rahs for the Parent-Teacher Club!

**Athletics**

Beginning with an inexperienced team in the winter of 1921-22 the Woodford High School Boys' Basket Ball team swept through the season undefeated, piling up a score that more than doubled that of their opponents. The girls met defeat the first two starts but thereafter were never given any organized opposition, completing the season with a record of scoring many more than twice the points scored by their opponents.

The year 1922-23 for the boys seems to be just as successful except that they have met schools of greater size and the first team has met two defeats while the second team has met one.

The girls have been more successful this year as they have lost only two games, these two going to the stronger teams of Healdton and Dundee.
The school is the criterion by which you are able to judge a community. Woodford Community is one that can boast of a good school.

In April 1921, the citizens of this enterprising community met and voted to issue bonds to the value of $10,000 to repair and enlarge their building so that high school work might be given with credit. The school term for 1921-1922 was begun September 19th with a high school organized. Credit for two years of work was asked for and given by the state department. Five teachers were required to do this work. The school term for 1922-1923 was begun September 4th with an additional years’ work added to the high school employing the full time of two teachers. Woodford has seen its high school grow from an initial enrollment of 14 in 1921-1922 to an enrollment of 39 in 1922-1923. It has seen a school grow from the grades in 1921 to a high school offering thirteen units of accredited work in 1922.

**The School Board**

They, on whom the responsibility of this school rests can very well carry that burden. This community has again shown its sagacity in choosing the following school board to carry out the destinies of this school. They are: J. F. McCants, Mrs. Jimmie T. Speake and Mr. L. H. Jones. All hail to this trio.
